Product Requirements Document (PRD)

Interior Design Company Website (10 Pages)

Project Overview

Develop a modern, responsive, SEO-friendly corporate website for an interior design company that has expanded its services from residential interiors to commercial interior design. The website should establish credibility, showcase the company's portfolio, highlight expertise, and generate qualified leads through appointment booking.

The website should have a premium, elegant, and minimal design that reflects professionalism and creativity.

Project Goals

Primary Objectives

- Establish a strong online presence.
- Showcase completed projects.
- Build trust through company information and partners.
- Allow potential clients to book consultations.
- Increase enquiries via WhatsApp and Email.
- Make the website mobile-friendly and SEO optimized.

Target Audience

Residential Clients

- Home Owners
- Apartment Owners
- Villa Owners

Commercial Clients

- Office Owners
- Retail Stores
- Restaurants
- Hotels
- Healthcare Facilities
- Educational Institutions
- Corporate Clients

Technology Requirements

- Responsive Website
- Mobile First Design
- SEO Optimized
- Fast Loading
- Modern Animations
- Optimized Images
- Secure Contact Forms
- SSL Ready

Website Structure

Total Pages: 10

---

1. Home Page

Purpose

Introduce the company and immediately showcase its design expertise.

Sections

- Hero Banner
    - Large background image/video
    - Premium headline
    - Call-to-Action button:
        - View Projects
        - Book Consultation
- Company Introduction
- Residential & Commercial Services Overview
- Featured Projects Carousel
- Why Choose Us
- Our Process
- Client Testimonials
- Trusted Partners

- Statistics
    - Projects Completed
    - Years Experience
    - Happy Clients
- Final CTA
    - Book Appointment
    - Contact Us

---

2. About Us

Sections

- Company Story
- Mission
- Vision
- Company Values
- Leadership / Founder Profile
- Team Overview
- Company Timeline

---

3. Services

Display all services with icons and brief descriptions.

Residential

- Living Room Design
- Bedroom Design
- Kitchen Design
- Dining Area
- Modular Kitchen
- Wardrobes
- False Ceiling
- Lighting
- Furniture

Commercial

- Office Interiors
- Corporate Spaces
- Retail Stores
- Restaurants
- Cafes
- Hotels
- Clinics
- Educational Institutions
- Reception Areas

Each service should have:

- Image
- Short Description
- CTA:
  - Book Consultation

---

4. Portfolio / Projects

Main portfolio gallery.

Categories

- Residential
- Commercial
- Offices
- Villas
- Retail
- Hospitality

Each project card should include:

- Cover Image
- Project Name
- Location
- Category
- Short Description

Clicking a project opens a Project Details page or lightbox with:

- Image Gallery
- Project Overview
- Scope
- Materials Used
- Completion Timeline

---

5. Partners

Purpose:

Display companies and brands associated with the business.

Sections

- Brand Logos
- Supplier Partners
- Material Partners
- Furniture Partners
- Technology Partners

Optional:

Short description of each partnership.

---

6. Testimonials

Display customer reviews.

Each testimonial includes:

- Client Name
- Project Type
- Rating
- Review
- Optional Client Photo

Slider layout preferred.

---

7. Process

Explain the design workflow.

Suggested Steps:

1. Consultation
2. Requirement Gathering
3. Site Visit
4. Concept Design

5. 3D Visualization

6. Material Selection

7. Execution

8. Quality Check

9. Handover

Use icons with connecting timeline.

---

8. Blog / Insights

Purpose:

Improve SEO and educate visitors.

Cards include:

- Featured Image
- Blog Title
- Date
- Category
- Read More

Example topics:

- Modern Interior Trends
- Office Design Tips
- Space Optimization
- Modular Kitchen Ideas
- Lighting Techniques

---

9. Contact

Sections

Company Details

- Address
- Phone
- Email
- Business Hours

Embedded Google Map

Contact Form

Fields:

- Name
- Phone
- Email
- Service Required
- Message

Buttons

- Send Enquiry
- WhatsApp Us

---

10. Book Consultation

Dedicated appointment page.

Fields

- Full Name
- Phone Number
- Email
- Project Type
  - Residential
  - Commercial
- Property Type
- Budget Range
- Preferred Consultation Date
- Preferred Time
- Message

Buttons

- Book Appointment
- WhatsApp

Submission Options

Option 1:

Send enquiry to company email.

Open WhatsApp with pre-filled enquiry message.

Global Website Features

Header

- Logo
- Navigation Menu
- Book Appointment Button
- WhatsApp Icon

Footer

- Company Information
- Quick Links
- Services
- Contact Details
- Social Media Links
- Copyright
- Privacy Policy
- Terms & Conditions

Functional Requirements

Appointment Booking

When users submit the appointment form:

- Validate required fields.
- Send enquiry via email to the company.
- Display success message.
- Provide optional WhatsApp redirection with pre-filled details.

Contact Form

Required Fields:

- Name
- Phone

- Email
- Message

Validation:

- Email format
- Phone number
- Mandatory field checks

WhatsApp Integration

A floating WhatsApp button should remain visible across all pages.

Clicking the button should open WhatsApp with a pre-filled message such as:

> "Hello, I'm interested in your interior design services and would like to schedule a consultation."

Admin Requirements

Although this is a basic website, content should be easily editable.

Editable Content:

- Project Images
- Project Details
- Testimonials
- Partner Logos
- Contact Information
- Services
- Blogs
- Hero Banner

Performance Requirements

- Load time under 3 seconds.
- Fully responsive across mobile, tablet, and desktop.
- Optimized image loading (lazy loading where applicable).
- Clean URLs and metadata for SEO.
- Basic accessibility compliance (keyboard navigation, alt text, sufficient contrast).

UI / UX Guidelines

Theme:

- Premium
- Elegant
- Minimal
- Luxury
- Clean

Color Palette:

- White
- Charcoal
- Beige
- Wood tones
- Gold accents (optional)

Typography:

- Modern sans-serif with clear hierarchy.

Animations:

- Smooth scrolling.
- Fade-in sections.
- Hover effects on cards and buttons.
- Animated counters on the Home page.

SEO Requirements

- Meta title and description for every page.
- Structured heading hierarchy (H1-H3).
- Image alt tags.
- XML sitemap.
- Robots.txt.
- Open Graph metadata for social sharing.
- Basic schema markup (Organization and Local Business).

Future Scalability

The architecture should allow future enhancements without major redesign, including:

- Full CMS integration.
- User login.
- Project filtering by tags.

- Online consultation scheduling with calendar sync.
- Payment gateway integration.
- Careers page.
- Case studies.
- Video gallery.
- Multi-language support.
- Live chat.
- AI-powered design recommendation assistant.

Deliverables

- Fully responsive 10-page website.
- Modern premium UI.
- Portfolio gallery with project details.
- Contact and appointment forms.
- WhatsApp and email enquiry integration.
- SEO-ready implementation.
- Cross-browser compatibility.
- Optimized performance.
- Source code with organized structure and documentation.

Success Criteria

The website will be considered successful if it:

- Clearly communicates the company's expertise.
- Showcases residential and commercial projects professionally.
- Builds trust through testimonials and partner displays.
- Enables visitors to easily contact the company or book consultations.
- Delivers a fast, responsive, and visually appealing experience across all devices.
